WHEN WILHELM WAS TOLD TO QUIT

(By Associated Press)
BERLIN, April 7.—While admitting there are differences of opinion among German generals as to the possibility of fighting to maintain the imperial regime in November, Count Schulerberg, commander of a guards regiment, maintains in an article on the abdication of Emperor Wilhelm published in the Freiheit that there are enough local troops to have marched on Aix la Chapelle and Cologne to put down the revolution. The Count says Hindenburg and General Groener, the Prussian war minister, would not assume responsibility for such a move, however, arguing that things had gone far and that only abdication of the emperor could have the situation.

PRISONERS OF WAR TO TOUR NEVADA

Four German prisoners will tour California, Arizona and Nevada with the Victory Liberty Loan trophy train, but they will not be real live Germans.

Among the thousands of exhibits which the United States government sent to San Francisco for this train, were four distinctive German uniforms, together with complete equipment. It was the intention to fill these uniforms with live models but Americans who were willing to pose as Germans were hard to find. As a result the "German prisoners" will be of wax.

The German Albatross six cylinder aeroplane, the first to be exhibited in the West, was shot down in Flanders. It requires more than half a flat car.

The Whipper tank, which will be driven from the train in each of the 150 towns at which the train will make stops, was manufactured in America and is one of those with which Pershing broke the Hun lines. Six cars will make up the Victory train now being assembled in the yards of the Southern Pacific company.

TONOPAH HIGH TEAM PROVES INVINCIBLE

The Tonopah high school basketball team met and defeated the rival camp's five Saturday evening, April 5, at the high school gymnasium. The game started with a rush with Tonopah in the lead, and she continually increased the score with the opponents fighting hard. The score at the end of the first half was 28 to 8, with Goldfield in the minority. The second half was about the same in the scoring and Tonopah did about what she pleased with the ball. When the final whistle blew the score was 56 to 16.

After the game a most enjoyable evening was spent in dancing in the Eagles' hall. The Butler orchestra furnished the music. Q. M. '29

In spite of the terrific windstorm the high school gymnasium was well filled by enthusiastic spectators. The Goldfield girls again "carried off the bacon" the score being 29 to 27 in their favor. At the end of the second half the score was 27 to 27. The teams continued to play until one side made a basket, the lucky one being Goldfield. Although Tonopah lost the game, our girls played fair and played a very good game. P. T. '19

Dr. Eftman has acted as consulting engineer for the company and, when the subject of sinking was broached, he gave it as his belief that the Divide breccia would be found much sooner in that quarter than in some of the closer locations, as the cap rock thins out very rapidly to the north. The mineralization looks good, with silver values predominating.

Two other vessels of the fleet the Star of Lapland and the Star of Zealand, are said by officials of the company to be the two biggest steel fishing vessels afloat.
